

## **15 FAM 230 ALLOCATING RESIDENTIAL SPACE**

*(CT:OBO-7; 04-26-2006)  
(Office of Origin: OBO)*

### **15 FAM 231 POOLED HOUSING**

*(CT:OBO-1; 04-29-2005)  
(Uniform State/USAID/Commerce/Agriculture/DIA)*

All U.S. Government-held short-term leased housing is considered pooled for purposes of assignment except designated residences.

### **15 FAM 232 ALLOCATING U.S. GOVERNMENT-OWNED/LONG-TERM LEASED (GO/LTL) RESIDENTIAL SPACE**

*(CT:OBO-7; 04-26-2006)  
(Uniform State/USAID/Commerce/Agriculture/DIA)*

Within the context of the approved housing profile, each post will establish a policy to ensure equitable distribution of existing U.S. Government-owned/long-term leased (GO/LTL) properties among the *direct-hire employees* of Foreign Affairs Agencies and the Defense Intelligence Agency (DIA) at post. This policy is guided by the principles outlined in 15 FAM 261.

### **15 FAM 233 ALLOCATING SHORT-TERM LEASED (STL) RESIDENTIAL SPACE**

*(CT:OBO-7; 04-26-2006)  
(Uniform State/USAID/Commerce/Agriculture/DIA)*

The post will assign short-term leased (STL) residences to best meet the overall interests of the U.S. Government, post needs, and professional and personal needs of all U.S. citizen personnel *under chief of mission authority (including contractors where housing is guaranteed in their contracts)*, regardless of agency affiliation. Agencies fund leases for housing their employees occupy. When an employee transfers, post interagency housing

boards (IAHBs) may assign personnel of one agency to residential quarters previously funded by another agency, with subsequent shifts in funding responsibility (see 15 FAM 164).

## **15 FAM 234 PREASSIGNING HOUSING**

*(CT:OBO-7; 04-26-2006)*

*(Uniform State/USAID/Commerce/Agriculture/DIA)*

To the extent possible, the interagency housing board (IAHB) should assign all new employees to appropriate housing, as provided under the interagency housing policy, prior to their arrival at post. Communication with the employee will enable post management and the post IAHB to consider employee preferences and needs in making these assignments. Effective management of a U.S. Government-leasing program will minimize costly temporary lodging allowance (TLA) and related expenses, as well as the carrying cost of vacant units.

## **15 FAM 235 DESIGNATED AND DEDICATED HOUSING**

### **15 FAM 235.1 Designated Residences**

*(CT:OBO-7; 04-26-2006)*

*(Uniform State/USAID/Commerce/Agriculture/DIA)*

Residences, whether U.S. Government-owned/long-term leased (GO/LTL) or short-term leased (STL), *must* be designated for the ambassador, deputy chief of mission, consul general or consul (when principal officer (PO)), U.S. representative to an international organization abroad (when PO), and Marine security guard detachment. Such properties are exempt from the space standards outlined in 15 FAM.

### **15 FAM 235.2 Dedicated Housing**

*(CT:OBO-7; 04-26-2006)*

*(Uniform State/USAID/Commerce/Agriculture/DIA)*

The senior representative of each Foreign Affairs Agency (U.S. Agency for International Development (USAID), Foreign Agriculture Service of the Department of Agriculture (FAS), and U.S. and Foreign Commercial Service of the Department of Commerce (US&FCS)) and the U.S. Defense

representative will receive housing within the standards for a family of four at the grade tier corresponding to the position (see 15 FAM 262), *unless the family size exceeds four. If the family size exceeds four and cannot be housed in the dedicated house, then post should obtain approval to lease the appropriate sized house through the lease waiver process (see 15 FAM 321 and 15 FAM 322).*

## 15 FAM 236 PRIVATE LEASES

(CT:OBO-1; 04-29-2005)

(Uniform State/USAID/Commerce/Agriculture/DIA)

Privately leased housing acquired by civilian employees under the living quarters allowance (LQA) program and military personnel under the overseas housing allowance (OHA) program is governed by the same space standards as U.S. Government-held housing and must meet the residential security standards outlined in 12 FAM 330. Units proposed for private leases must be approved in advance by the post interagency housing board (IAHB) and the regional security officer/post security officer (RSO/PSO) following the 12 FAM procedures.

## 15 FAM 237 DETERMINING RESIDENTIAL SPACE AUTHORIZATIONS

(CT:OBO-7; 04-26-2006)

(Uniform State/USAID/Commerce/Agriculture/DIA)

- a. An employee's *maximum* residential space authorization is based on his or her position rank and family size, adjusted for locality factors. The application of these factors in special circumstances is explained in 15 FAM 264. The maximum space authorizations for residences are defined in 15 FAM Exhibit 237A and 15 FAM Exhibit 237B; waiver provisions are found in 15 FAM 312.7 and 15 FAM 322.
- b. The space standards established by this subchapter are the maximum allowable and should not be construed as entitlements or goals to be sought for U.S. Government employees abroad. These regulations are not intended to preclude agencies from adopting smaller space standards for certain categories of personnel in keeping with the nature of their roles in the U.S. Government's conduct of foreign relations.

## **15 FAM 238 COMPUTING SPACE**

*(CT:OBO-1; 04-29-2005)*

*(Uniform State/USAID/Commerce/Agriculture/DIA)*

Residential space standards are based on usable living space. See 15 FAM Exhibit 238A, Exhibit 238B, and Exhibit 238C for details on computing functional and residential net and gross space. If measurements are done in feet, posts should convert and maintain these in metric scale as required by Federal regulation.

## **15 FAM 239 UNASSIGNED**

# 15 FAM EXHIBIT 237A

## SPACE STANDARDS CHARTS SHOWN IN SQUARE FEET AND (*SQUARE* METERS)

*(CT:OBO-7; 04-26-2006)*

## **15 FAM EXHIBIT 238A MEASURING SPACE FOR OFFICE AND FUNCTIONAL PROPERTY**

*(CT:OBO-1; 04-29-2005)*

**Net space includes** all space used for and related to the function of the property, measured from wall to wall inside the structure (e.g., offices, storerooms, workshops, eating and food service/preparation areas, finished storage areas). This includes all such areas that appear under the same Property ID, whether or not incorporated in the same structure.

**Net space excludes** elevator lobbies, mechanical equipment and generator rooms, transformer vaults, communication vaults, telephone electrical closets, janitor closets and toilets, hallways, stairways and stairwells, elevator shafts, chimney shafts, dumbwaiter shafts and similar installations, inner courtyards or enclosed walkways that lead from one section of a building to another, and outside porches/terraces/balconies.

**Measure** only actual floor space, not open areas that extend through the floor, such as skylights or entryways that are several floors high. **Do not measure** exterior walls and thicknesses of interior partitions.

**Gross space includes** all areas on all floors within the normal outside surface of the exterior walls. This includes all functional areas listed above (offices, etc.), all attics and basements, finished or unfinished, if a person can walk upright in them and they are easily accessible (exclude crawl spaces in attics and basements, even if used for storage), parking garages, hallways, enclosed walkways, mechanical rooms that are part of the main structure, stairwells, elevator shafts, chimney shafts, and dumbwaiters or similar installations. **Measure** these areas as if the actual floor were in existence on each level and there were no stairway, elevator, or other shaft.

**Gross space excludes** separate, outside generator, UPS, and other equipment sheds; loading platforms; outside porches, terraces, or parking lots and open (but covered) outside parking.

**NOTE: Gross area must be greater than net.** All net space is automatically included in gross space. Areas not included in gross should not be included in net area.

## 15 FAM EXHIBIT 238B MEASURING SPACE FOR RESIDENTIAL PROPERTIES

(CT:OBO-7; 04-26-2006)

**Net space includes** all usable living space on all floors, measured from wall-to-wall within each room: reception rooms, ballrooms, living rooms, dining rooms, bedrooms, kitchens (from wall-to-wall, including cupboard/counter space), breakfast and eating areas, pantries (unless exclusively storage space), libraries, dens/studies, family and recreation rooms, powder rooms, bathrooms, dressing rooms, enclosed patios/terraces/balconies (if heated/air-conditioned and usable year-round).

**Net space excludes** open balconies, garages, halls, foyers, stairwells, elevator and chimney shafts, dumbwaiters, *domestic staff* quarters (only areas specifically designed as such), utility shafts/closets, laundry or household appliance rooms, built-in closets (or space occupied by wardrobes), furnace/fuel rooms, and storage areas. If live-in help occupies space that would otherwise be used by the occupant as living space, this space does not qualify as *domestic staff* quarters and must be included in the net total. **Do not measure** exterior walls and thickness of interior partitions when measuring usable space. (If portions of residential space must be used for official storage, post should request a waiver from the Bureau of Overseas Buildings Operations (OBO) to deduct it from net area.)

**Gross space includes** all areas on all floors within the normal outside surface of the exterior walls, hallways and foyers, attics and basements, finished or unfinished, if a person can walk upright in them and they are easily accessible (exclude crawl spaces in attics and basements), stairwells, elevator and chimney shafts, and dumbwaiters or similar installations. **Measure** these areas as if the actual floor were in existence on each level and there were no stairway, elevator or other shaft. Gross space includes mechanical equipment rooms, garages, and servants' quarters that are incorporated in the main structure and part of the residence.

**Gross space excludes** separate outbuildings (garages, sheds, *domestic staff* quarters). If *they are* significant in size or function, report them as ancillary structures. Gross space *also* excludes open courtyards or walkways that lead from one building or section of a building to another,

loading platforms, outside porches, outside stairs, terraces, parking lots and open, but covered, outside parking.

**NOTE: Gross area must be greater than net.** All net space is automatically included in gross. Areas not included in gross should not be included in net area.

## 15 FAM EXHIBIT 238C

### CONVERSION TABLE METRIC/ENGLISH MEASURE

*(CT:OBO-1; 04-29-2005)*

Gross and net space may be measured in square meters or feet. Under Federal regulation, the Bureau of Overseas Buildings Operations (OBO) is required to maintain metric measurements. The following table may be helpful in converting English and metric measurements.

**Square Meters = Square Feet**

1	10.764
5	53.80
10	107.6
15	161.4
20	215.2
25	269

Square Meters x 10.764 = Square Feet

**Square Feet = Square Meters**

1	.093
50	4.65
100	9.3
150	13.95
200	18.6

Square Feet x .093 = Square Meters

Fractions should not be carried beyond two decimal places and may be rounded to the nearest whole number.

#### **Land Area Measurements**

1 Hectare	=	10,000 Square Meters
1 Hectare	=	2.47 Acres
1 Acre	=	4,047 Sq. Meters or .4 Hectares
Sq. Meters/4047	=	1 Acre
